Reviews

An extremely wonderful pdf with lucid and perfect explanations. I could possibly comprehend every little thing out of this created e pdf. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Janie Wilkinson)

PERSPECTIVES ON DISCOURSE ANALYSIS: THEORY AND PRACTICE

Cambridge Scholars Publishing, United Kingdom, 2009. Paperback. Book Condition: New. 1st Unabridged. 206 x 145 mm. Language: English . Brand New Book. Perspectives on Discourse Analysis: Theory and Practice provides the student/reader with the basic theoretical knowledge and the empirical tools of some of the most relevant approaches to the analysis of discourse. It has been mainly conceived of as a general (university) course on Discourse Analysis, but it can also be useful for any person or group whose main concern is to acquire the basic necessary knowledge and skills for analyzing any type of discourse. The subject matter of the book could not only be of use for linguists or prospective linguists: given its interdisciplinary character, its findings can be (and in fact are) used and applied by practitioners and scholars from different fields, such as sociology, psychology, medical science, computer science, and so on. Thus the book can be used by any person who, having certain linguistic knowledge, is interested in exploring the fascinating world of discourse. All the chapters contain both a theoretical and an empirical section, the latter containing examples of analysis, as well as exercises (Practice) and self-evaluation questions, whose answers can be found at the end of the book (in the Practice key and Key to self-evaluation questions sections). The book is divided into 12 chapters. The first two introduce basic information about discourse analysis and text linguistics, as well as the necessary techniques for gathering data, including a very brief introduction to corpus linguistics. Chapters 3-11 present and discuss some of the most prominent and well-known approaches to discourse analysis, namely Pragmatics, Interactional Sociolinguistics, Conversation Analysis, The Ethnography of Communication, Variation Analysis and Narrative Analysis, Functional Sentence Perspective, Post-Structuralist Theory and Social Theory, Critical Discourse Analysis and Positive Discourse Analysis, and Mediated Discourse...
