

System Modelling and Optimization

By A. Prekopa

Berlin Springer Springer. Taschenbuch. Book Condition: Neu. 244x170x mm. This item is printed on demand - Print on Demand Titel. Neuware - Mathematical modelling and optimization of PVC powder blending process for development of multilevel, optimized process control system.- An economic approach for optimum long-term plant mix choice.- An algorithm for getting a minimum cut-set of a graph.- Optimal design of a remote heating network.- Computational complexity of some semiinfinite programming methods.- The calculation of manpower for aircraft ground service.- Discontinuous adaptive control of non minimum phase linear plants.- Optimal control of the storage power plant system Gosau.- Stochastic control in urban traffic.- Throughput optimization of packet communication networks.- Performance analysis of data link and communication device control procedures in distributed Micro/Mini computer systems.- Optimal control methods for power system operation.- Models and methods for estimating an origin-destination trip matrix from network data.- Optimal control of age-structured populations.- Skew-symmetric matrices, staircase functions and theorems of the alternative.- Stabilization of the secant method via quasi-newton approach.- Assignment problems: Recent solution methods and applications.- Optimal control as a tool for solving the stationary Euler equation with periodic boundary conditions.- Optimization problems for two-stage process of resource allocation.- Balanced realisations for infinite-dimensional discrete-time...

Reviews

An extremely wonderful book with lucid and perfect information. It is one of the most awesome publication i have read. Your life period will probably be enhance the instant you total looking at this pdf.

-- Prof. Dan Windler MD

It is really an amazing publication i actually have at any time read. It is really simplistic but unexpected situations inside the 50 percent of your pdf. Its been written in an exceptionally simple way in fact it is just right after i finished reading this ebook where actually transformed me, alter the way i really believe.

-- Dr. Celestino Spinka III
