In addition, it aids in the induction of the high tension current in the secondary winding of the coil by permitting the quick break of the primary current. The following are the names and functions of the various parts of a battery ignition system: . Primary Circuit.--That part of the system carrying the battery current at low voltage--a few turns , - , T-i: . ZJrTM oi coarse wire on the coil. Secondary Circuit.--That part of the system carrying the high tension current to the spark plugs--a great many turns of very fine wire on the coil. Timer.--A mechanically operated switch placed in the primary circuit. Its function is to complete the primary circuit and cause the vibrator to...
