THE ARABIC QURAN: A JOURNEY IN CONSCIOUSNESS

Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The current awakening to consciousness, the conclusion by quantum physics that a Supreme Consciousness gave rise to all of creation, the illusory nature of that creation, the importance of the self, the power of the self, the power of the Creator within the self, the need for peace and harmony, the need for unity, freedom from oppression and mental bondage; these are all Quranic concepts. The purpose of this book is to awaken something deep within every one that comes into contact with it. With this awakening, will come many questions and your task would be to seek answers. These answers you will not find where you have always found answers before. The search is a new one and the answers cannot be from the same sources of old - that have mankind in the situation they are in right now - segregation, oppression, war, tyranny, hunger, pride, jealousy, hatred and fear. The answers will come; provided the quest is sincere. A concerted effort must be made - unbiased, unprejudiced and unconditioned. The comfort zone must be compromised in order for truth, love, joy and peace to prevail eventually. The basis of this book is the Arabic Quran. However, it does not mean that the message is only for those that claim to be Muslims. The message of the Arabic Quran is guidance to mankind and we will indeed come to understand that the message is not an organized system of beliefs, ceremonies, and rules used to worship a god, and promote a religion.
